

Competency Tracking Form

Employee Name: _____

(Basics to Practice Assisting)*An attempt is per occurrence, not per patient. Scoring is as follows:

- 1 **Did not attempt or did not perform due to complete lack of knowledge or capability**
- 0 **Attempted (regardless of success) with some knowledge but needed assistance**
- +1 **Attempted (regardless of success) with knowledge and needed some assistance**
- +2 **Attempted (regardless of success) with complete knowledge and demonstrated mastery (able to teach to others)**

	Module 1			Module 2			Module 3			Final	Total
Cardiac Monitor Operations	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper daily monitor check											
Demonstrate proper placement of 12 lead electrodes											
Demonstrate proper printing of 12 lead and code summary											
Demonstrate proper interpretation of 12 lead*											
Demonstrate proper placement of defibrillation pads											
Demonstrate proper techniques for transcutaneous pacing*											
Demonstrate proper techniques for synchronized cardioversion											
Demonstrate proper AED function (including LP 300)*											
PediMate	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper placement and operation of PediMate											
Traction Splint	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper use of traction splint											
IV*	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper preparation of IV fluid and administration set											
Demonstrate proper IV catheter insertion technique											
IO	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper IO insertion technique*											
Demonstrate proper confirmation of IO patency*											
Airway Management	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper techniques for applying airway devices=											
Nasal Cannula											
NRB											
CPAP											
Bag Valve Mask / Bag Valve Tube											
King LT airway / Combitube											
Demonstrate proper techniques for endotracheal intubation for adult patients with no presence of trauma (Basics practice assisting)											
Demonstrate proper techniques for endotracheal intubation for trauma adult patients (Basics to practice assisting)											
Demonstrate proper techniques for endotracheal intubation for pediatric patients with no presence of trauma (Basics practice assisting)											
Demonstrate proper technique of and recognition of the need for RSI/PAI											

Medication Administration	Module 1			Module 2			Module 3			Final	Total
	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper technique for vascular medication administration											
Demonstrate proper technique for intramuscular medication administration (Basics to demonstrate auto-injection)											
Demonstrate proper technique for intranasal medication administration											
Demonstrate proper technique for nebulized medication administration											
Demonstrate knowledge of proper dose, route, indications and contraindications of:											
Albuterol											
Acetaminophen*											
Adenosine*											
Amiodarone*											
Aspirin											
Atropine*											
Calcium Chloride*											
Dextrose*											
Diazepam*											
Diphenhydramine*											
Dopamine*											
Epinephrine*											
Epipen											
Fentanyl*											
Furosemide*											
Glucagon											
Ipratropium Bromide											
Lactated Ringers*											
Lidocaine*											
Magnesium Sulfate*											
Methylprednisolone*											
Midazolam*											
Morphine Sulfate*											
Naloxone*											
Nitroglycerin											
Normal Saline*											
Ondansetron*											
Promethazine*											
Sodium Bicarb*											
Succinylcholine*											
Vecuronium*											

	Module 1			Module 2			Module 3			Final	Total
Focused Medical Assessment	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate the appropriate assessment, management and transport decision making ability for a(n):											
Allergic Reaction											
Bradycardia											
Burns											
Cardiac Arrest Asystole / PEA											
Cardiac Arrest VFib / VTach											
CHF											
Hyperkalemia											
Hypotension											
MI											
NarrowComplex Tachycardia											
Nausea / Vomiting											
OB Emergencies											
Obstructive Airway											
On Scene Pronouncement											
Overdose											
Pain Management											
Pneumothorax											
Post Delivery Resuscitation											
Reactive Airway											
Seizure											
Stroke											
Toxic Exposure											
Violent Patients											
WideComplex Tachycardia											
Spine Immobilization	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate proper technique for spinal motion restriction											
Bandaging and Splinting	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate a proper technique for bandaging a wound											
Demonstrate a proper technique for splinting an extremity injury											
Demonstrate a proper technique for splinting a hip injury											
Trauma Assessment	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate the appropriate assessment, management and transport decision making ability for a trauma patient											
Radio/Phone Reports	Op 1	Op 2	Op 3	Op 4	Op 5	Op 6	Op 7	Op 8	Op 9	Op 10	Total
Demonstrate the ability to properly give a radio/phone report											
Demonstrate the ability to properly give a hospital report											
Demonstrate the ability to properly write a patient report
