

# Northampton County Emergency Operations Plan

## **2.7.3 State Agencies**

- Identify public and private-sector partners needed for effective planning and response.
- Develop key components of the statewide preparedness plan.
- Develop/implement data management systems needed to implement components of the state plan, as necessary.
- Coordinate with counties to ensure consistent messaging, information exchange, appropriate response, and appropriate allocation of state resources.
- Coordinate with other states and with federal agencies regarding assets, response, information, and public communications.
- Ensure the continuity of state government and protection of state employees.
- Respond to agricultural emergencies.
- Integrate military assets into response activities.
- Manage mass fatalities.
- Sustain state-run transportation systems.
- Provide mental health support.
- Mitigate the impact of an emergency or disaster on workers, critical infrastructure, and key resources throughout the state.
- Conduct impact and needs assessments.
- Manage volunteers.
- Assist vulnerable populations.
- Acquire and allocate scarce resources.
- Provide EMS guidance and oversight.
