NORTH VALLEY DISTRICT 2011 FIRST AID MEET

Bird Study MB Scenario

SCENARIO: Your patrol is working on the Bird Study Merit Badge at the High School's Wildlife Center when the patrol observes an unknown bird's nest in an old oak tree. Not being able to tell what type of bird's nest it is, a patrol member starts to climb the tree. A branch supporting the Scout's weight suddenly breaks and the Scout falls approximately ten feet. The Scout hits the ground feet first and then hits his head against the tree. Your patrol observes the Scout's lower right leg is deformed and swelling (a broken bone). The Scout was temporarily knocked unconscious, but regains consciousness quickly. The Scout complains of severe right leg pain and his neck and head hurting. The patrol does not have a cell phone and the closest phone is two miles away at the General Store. The patrol has a basic first aid kit, including splinting materials.

ACTION TAKEN	POSSIBLE POINTS	POINTS EARNED
SAFETY	5 Max pts	
1. Scouts say they have medical gloves on or do have them on.	5	
GOING FOR HELP	5 Max pts	
1. Patrol sends two Scouts to call for help <i>(if only 1 scout goes, then 2 points)</i>	5
