## NORTH VALLEY DISTRICT 2012 FIRST AID MEET

### Burn & Laceration Scenario

Scenario: While selling popcorn in the neighborhood, the scouts hear a 25 year old male scream. The scouts know that he was working on his car because he just bought popcorn from them and they now see him in visible pain holding his left arm. Upon approaching him, he tells the scouts that he accidentally touched the hot muffler with his left arm and then accidentally cut his right index finger with a knife he was using. The victim then states that he feels sick and light headed.

The scouts observe that the male's left forearm is red and beginning to blister. The right index finger laceration is not very deep and no stitches are required. A garden hose is nearby.

One of the scouts has his cell phone and calls for help. The address of the residence is 1225 Christmas Lane.

Only the patrol leader and the Scout calling for help may speak to the judge.
