## NORTH VALLEY DISTRICT 2018 FIRST AID MEET Stake Injury Scenario

Scenario: It is Saturday November 3, 2018 at approximately 1pm and your patrol is distributing door hangars for Scouting for Food. As one of the scouts is placing a door hangar he hears a door slam and then a loud scream coming from the house next door, 1313 Mockingbird Lane. The scout rushes over and finds a male laying on his back in the yard. The scout recognizes the male as Mr. Christopher Lee, a 50 year old former mayor of the town. Mr. Lee has a wooden tent stake embedded in his lower left chest, just below his rib cage. Mr. Lee is unconscious, there is minimal blood loss. No one else is home at Mr. Lee's residence. The patrol has no working phones, as the batteries have died from playing music on them while delivering the door hangars. As one of the scouts is about to head for help, he runs right into a branch and receives two minor puncture wounds on the left side of his neck. The lacerations are bleeding, but the lacerations are not life threatening, and easily controlled.
